THE SUNDAY SERMON

OF REV. J. W. BURNS

In his pulpit at the First Christian church last Sunday morning, the Rev. J. W. Burns presented a very pointed but practical sermon to his congregation. He says that he did not think his congregation was the only one in the city that needed such a sermon, but that perhaps it might be well for each minister to take his congregation to a "saint" occasionally. He used for his subject, "Our Strength Commanded," and took for his text, Psalms 88:28. "Thy God hath commanded thy strength." He said in part, as follows:

"My text is chosen from one of the grand old songs of the song-producing past. It comes to the mind in trying times and under critical conditions. It is full of promise. Now you just combine it with courage and don't need anything else. A guarantee of absolute safety goes with this preparation."

comes to the mind when some great contest is on in mind, experience shows a contest of heart or hand when a great victory may be lost or won.

It was a mighty contest between David and Goliath. When Goliath advanced his broadsword up the heights of Dothan, but so silent was the melody of the song of nature and man the harmony, that it kept over those features with ease, for when that strong man looked up the heights and saw the possibility of defeat and the surrounding circumstances, he raised every ounce of his soldier and inspired each force with the new strength by crying out, "Thy God ariseth, let His enemies be scattered; thy God hath commanded thy strength."

"It is a song that comes to us who have no battles of Dothan to fight in the fields of Scotland, or no difficulties above of David to face, but we have other feelings of anxiety than are as trivial and perhaps as difficult to meet. We have problems as important to us as was David's trouble or Goliath's battle. They are matters of vital interest to each one of us as servants of God, interested in the Master's welfare. I have become alarmed at the condition of the church of Jesus Christ. I am not a pessimist and I want it plainly understood that I am an optimist but I feel an alarming uneasiness concerning the church just the same. David was feeling at the time of his song that God was making an urgent demand of him. Cromwell felt that God was demanding all there was to him. So, my friends, I feel this morning that God is speaking out to us as workers in His Kingdom. Thy God hath commanded thy strength."

"I see so much that is sapping the spiritual life of the church. I see men and women preferring worldly things to that of heavenly things. I see them in the mad rush for riches and worldly glory. I see them giving their time and means to getting rich and pauperizing the Kingdom of God. The number of church members in Carter county and Ardmore, compared to other centers of like population, is the smallest. Is it not time for us to become concerned?" I see men and women selling their souls for the pleasures of the world. I see the picture shows and the places of amusement taking all the money of the boys and girls and interest too. Many a poor little boy and girl saves his Sunday morning nickel from the Bible school offering to give it to the picture show man in the afternoon. They are trading their souls' best interest for an hour of trivial pleasure and on the Lord's day at that.

"It is easy to get people out for street amusements but not to a church rally. The idea of being compelled to advertise the House of the Living God. But I call your attention to the solicitous announcements of the earliest pastors of this city in the Sunday morning papers. I see boys and girls tramping the streets during Sunday school hours and while the Christian Endeavor service is on. Men and women sleep away their eternal rights on Sunday morning and cry out against the church when they feel a loss of their souls.

"On the money paid for social pleasures and clubs and lodges, I have a right to speak in this regard, for I am a lodger mate myself. I am not commanding them all but I declare to you, if I had an equal amount of money to spend for the Lord as paid out to such organizations I could finance every church in this city. We are paying more money for our standing among men than we are for a home in heaven. Besides, we are giving them more of our time and attention in spite of the fact that we are commanded to "seek first the Kingdom of God and His righteousness." Oh, when will we ever reach the point of knowing that our eternal existence should receive more of our attention than the few brief years of life on the earth? I am pleading for more earnest and consecrated interest on the part of Christian people. Thy God hath commanded thy strength."

"Then what are we to do? Let the church get busy. Let every professed Christian do his duty. Let the preacher give his entire attention to the things of the Kingdom and keep his nose out of other people's affairs. We are servants of the living God and have only His work to perform. Let the church officials do their bounden and Scriptural duty. Let every Christian father and mother wake up to the interest of the soul's welfare of their boys and girls, as well as their own. The young must be prepared to accept the cloak of those of you who are soon to pass away. Where are those young? Where are we going to get them from the looks of things at present?

"There is still another thing my friends, that demands our strength. That's our character. The sun comes up and goes down because it can't help itself. The sun shines because they can't resist. In all of nature there is one great fixed aim of the Creator. It is different with our souls. We are to judge and determine for ourselves what moral course we are

DO YOU WANT A BOSS?

A Red Card Socialist Speaks Out.

Editor of the Oklahoman:

Sir—My citizenship is in Oklahoma, and I am vitally interested in the welfare of the state and particularly the political decency thereof.

If you are in favor of a "square deal" will you kindly give the attached discussion in your Sunday issue?

My work as a salesman has taken me from the state for the past four weeks and that is why I have not here-tofore discussed this vital question.

Is the fair election law fair? No.

Why not? Would it be fair for the voters in each precinct to elect a precinct election board? Yes.

Does the fair election law provide for them to be elected? No. They are to be appointed.

Would it be fair for the county election board to be elected? Yes, but the so-called fair election law provides for appointments. These appointments are to be made, not by an elected officer, but by a party boss.

Are appointments of such character in keeping with tactics and practices of the socialist party? No. For election officers who conduct elections, to be appointed by a machine boss of each party; does it destroy a machine rule? No. Then why vote against one so-called machine and for another that will be an organic law of the state?

Is the so-called fair election law a socialist measure? No.

What kind of a measure is it? A republican party measure, initiated by our socialist bosses: Nagle and Sinclair, with republican money, with republican votes and republican backing.

Can a socialist see that? Yes, anybody can fully understand it. If it had been a truly socialist measure it would be written that all these various election boards should be elected and not appointed.

Do the republicans want them appointed? Yes.

Do the socialists want them appointed? No.

Then vote "No" on the fair election law.

As you well know, I am as true a class-conscious socialist as ever lived in Oklahoma, but I do not want a "red card" boss any more than a "democratic" boss or a "republican" boss, and if this fair (?) election law goes into the constitution, we will build a "red card" machine, as equal of which has never been known.

When the socialists—the real socialists—frame an election law, it will provide for election officers to be elected, and not appointed by an inner circle of bosses.

Will you stand for such gag tactics, comrade? I think not.

Will you vote to kill a republican

Now Look Out.

When a cold hangs on as often happens, or when you have hardly gotten over one cold before you contract another, look out, for you are liable to contract some very serious disease. This succession of colds weakens the system and lowers the vitality so that you are much more liable to contract chronic catarrh, pneumonia or consumption. Cure your cold while you can. Chamberlain's Cough Remedy has a great reputation. It is relied upon by thousands of people and never disappoints them. Try it. It only costs a quarter. Obtainable everywhere.

measure put through the now existing socialist machine? I think you will.

Let us show to the world we have no political boss! Let us kill this cursed carpet-bag, gag machine corrupting law.

Will you vote "No" with me and thus force the state office, red-card bunch to quit "fumbling with republicans"?

When we can get a socialist measure we will vote for it, but not a measure to build a machine far more corrupt than the democrats have ever dreamed. Vote "No."

Very truly,
J. N. GILMORE,
Tishomingo, Okla.
